Background

The Prince Edward Island Provincial Nominee Program (PEI PNP) is administered by the Office of Immigration (the Office) in partnership with the federal government as outlined in the Agreement for Canada - Prince Edward Island Co-operation on Immigration. The purpose of the PNP is to increase the economic benefits of immigration to Prince Edward Island (PEI) by providing the province with a mechanism to prioritize and nominate candidates for permanent residency. The federal government allocates on an annual basis a limited number of nominations to each province.

Introduction

This guide is for foreign nationals interested in pursuing a viable business opportunity in PEI who would like to apply for a nomination for permanent residency through the PEI PNP. If approved as a provincial nominee, you and your dependent family members can apply to Immigration, Refugees and Citizenship Canada (IRCC) to become a permanent resident of Canada in the Provincial Nominee class.

The Business Impact Category supports foreign nationals who are interested in owning and operating a business in PEI and who would like to apply for a nomination for permanent residency through the PEI PNP. Priority will be given to applicants who have the greatest potential to become economically established in PEI.

The PEI PNP selection process operates through an Expression of Interest (EOI) system which is points-based and used to assess potential candidates in advance of issuing an invitation to apply. The intent of the process is to identify candidates with the greatest potential to become economically established. As a first step, interested applicants must review this guide to ensure they meet program criteria. If program criteria are met, applicants register and create a profile through our EOI system.

Use of Representatives

If you choose to use an immigration representative, they must be approved as a Registered Business Category Representative prior to submitting an Expression of Interest or Application on your behalf. A list of approved Registered Business Representatives can be found at <https://www.princeedwardisland.ca/en/information/office-of-immigration/pei-pnp-approved-business-representatives>. You must complete a Use of Representative Form (IMM 5476) to provide authorization for the Registered Business Representative to work on your behalf.

You are not required to use a representative to complete the work on your behalf if you have the ability to represent your own interest in the immigration process.

The Office does not give preferential treatment to applicants using a representative. In addition, working with a representative does not guarantee you will receive a nomination from the Province of PEI.

Work Permit Stream

Prince Edward Island has one pathway for entrepreneurs through the Provincial Nominee Program, the Work Permit Stream.

The Work Permit Stream is for individuals interested in coming to PEI on a work permit and operating a business for a minimum of one year prior to receiving a nomination for permanent residency. If you are invited to apply under this stream, you will be required to sign a Performance Agreement and, if approved, will receive a letter of support from the Office of Immigration to apply for a work permit that is issued by the federal government.

If the terms and conditions of the Performance Agreement have been met, you will receive a nomination for permanent residency. *(See Step 11: Compliance with your Agreement)*

Step 1: Assess your Eligibility

Prior to submitting an EOI profile, you must ensure you meet the following minimum criteria for the Business Impact Category:

- have a minimum verifiable personal net worth of \$600,000 which has been accumulated through legal and legitimate sources in your own right;
- have a minimum education of secondary school equivalent;
- be within 21-59 years of age at the time of application;
- have transferable management skills and past employment or business ownership experience;
- meet minimum language requirements equivalent to a CLB/NCLC 4; and
- intend to live and work in PEI while providing day-to-day active and ongoing management of your PEI-based company.

Step 2: Create your Profile

If you meet the eligibility requirements of the program listed above, you or your representative may create a profile in the EOI system. To create a profile, you will be asked to provide a valid email address, and identification information including your passport details. Once your account has been verified, you will be able to proceed to complete your profile.

Your profile will remain active for a period of six months. You must ensure information provided in your profile is accurate and verifiable. If your situation changes prior to being invited to apply, you may update your profile. If your situation changes after being invited to apply you must contact the Office with the new information; this may impact the ultimate decision on your file. You can find additional information on the EOI points grid in Appendix A.

Important

An Expression of Interest is not an application, but an indication of your interest in being considered to apply to the PEI PNP Business Impact Category. The Office reserves the right to limit intake or make exclusions from Expressions of Interest draws.

Community Endorsement

The Office has developed a new category for communities to endorse the selection of a potential business applicant. The vision for this new category within EOI is to have communities collaborate to identify potential candidates, provide guidance and business support that will lead to improved visibility for all Island communities and greater likelihood for engagement and successful integration for the foreign national in that community.

If the community provides an endorsement, they agree to provide the following services:

- Engage and provide integration support to newcomers endorsed by the community. This engagement to include business advice and guidance on items such as business location possibilities, additional markets or partnerships, and key business relationships in the community;
- Provide an overview of the community including infrastructure and services that exist, industry profiles, business patterns, demographics, housing, and opportunities to enhance business integration (such as Chamber memberships etc.); and
- Provide notification and required details to the Office when newcomers are provided with an endorsement.

If you receive a community endorsement and claim the associated points, you are required to establish your business in the endorsing community to be compliant with your Work Permit Performance Agreement.

Step 3: Invitation to Apply

If you are invited to apply, you will receive an email notification that will include your file number and instructions for application submission and net worth verification. Individuals who are invited to apply will be removed from the pool and have up to 60 days from the invitation date to submit an application. If you are invited to apply and decide not to proceed with the application you can select withdraw within the EOI system and your invitation to apply will be withdrawn. Your profile will be removed from the qualified pool and your invitation will be cancelled. You may submit a new profile at any time; however, this does not guarantee another invitation to apply.

The frequency of invitations to apply is based on annual nomination allocations, processing capacity, and other provincial requirements.

Step 4: Net Worth Verification Report

Within 15 days of receiving an ITA, you must engage with a net worth verifier that has been designated by the Office of Immigration, and you must provide us with the name of the provider you have chosen. They will review your personal net worth claims and your accumulation of funds through an analysis of the financial documents you submit to them, and they will create a Net Worth Verification Report on your behalf. The service provider will review your personal net worth claims to determine:

- total verifiable personal net worth;

- validity of funds accumulated;
- all sources of income;
- ownership and value of declared assets;
- employment income evaluation;
- whether further investigation is required

The net worth verifier will send a copy of the report directly to IIDI and to you. The report will be used in the assessment of your application. Notwithstanding the conclusions of the report, IIDI has the sole discretion and responsibility to assess your application and may request additional information, supporting documentation, and clarification regarding your personal net worth during the application process.

The amount of time it takes to evaluate your documents and prepare a verification report will vary. Factors such as the volume of financial documents you provide and the processing capacity of the service provider can affect the timing. Service providers are required to complete a net worth verification report within the 90 days after you have received your ITA.

The Office of Immigration recommends you do not engage a service provider until you receive an ITA. The report is valid for 12 months from the date of issuance by the service provider.

Any and all costs associated with the provision of services provided by the net worth verifier is the complete responsibility of the applicant.

If the proponent providing the net worth verification is also assisting with or providing advice relating to the Business Plan for the same applicant, this must be disclosed to IIDI.

If you did not choose one of the designated Personal Net Worth Verifiers listed below, your application will be refused.

Failure to provide satisfactory evidence to verify your personal net worth and legal accumulation of funds will result in the refusal of your application.
