Introduction

Either a man or a woman can be a victim of abuse. Abuse in relationships can affect people from any demographic -- cultural, national and ethnic origin, socio-economic status, education, gender, age and physical or mental ability.

Abuse can take many forms, which can include: harassment, verbal abuse, threats, financial abuse, psychological abuse, emotional abuse, spiritual abuse, neglect, damage to property, injury to pets, physical abuse, sexual abuse, and homicide.

Perhaps you haven't considered that you are the victim in an abusive relationship. Perhaps you haven't considered that your behaviour may be abusive and hurtful in a relationship. No matter what your role; ABUSE is not okay. It's not right. It's very damaging.

Being able to recognize abusive behaviour is an important step in moving forward. The next step is to seek help and support.

The purpose of this guide is to provide information about services in Prince Edward Island that can help you. When you contact any of the included organizations, they will work with you to get the help you need.

This guide contains information for individuals who identify as a victim, or as someone whose behaviour is abusive, or both. It also contains valuable support information for neighbours, friends or family members who care.

The beginning of this guide contains information for victims of abuse. The latter part of this guide contains information for those individuals whose behaviour is abusive.

NOTE REGARDING SAFETY:

If you are afraid of what might happen if someone sees this booklet or your notes, keep it in a safe and secure place. For instance, if there are no places in your home that you feel would be a safe or secure place to keep this booklet, keep it in a private space at work where no one could access it.

Information for Victims

You don't deserve to be abused.....

You deserve to be treated with complete RESPECT

Warning Signs of Abuse:

Does your partner:

- Always have to be right?
- Use putdowns?
- Decide what to do, where to go, and when to do it?
- Try to tell you how to wear your hair or what clothes to wear?
- Criticize you all the time?
- Say you are too fat, too skinny, ugly, or stupid?
- Tell you that you are a bad parent to offend and/or hurt you?
- Call you humiliating names?
- Insist on controlling all the money?
- Threaten suicide if you leave?
- Get upset or jealous when you do things alone with your friends?
- Send harassing text messages or phone calls asking where you are, what you are doing and who you are with?
- Insult the type of work you do or the kind of courses you take at school?
- Force you to have sex when you do not want to?
- Threaten to hit you, harm your pets or break things?
- Slap, kick or punch you?
- Hack into your Facebook or email account?
- Hurt your kids?

If you answer 'yes' to any of these questions, you may be involved in an abusive relationship. This can be difficult, but you are not alone. There are many resources, services and people available to help you.

For Family, Friends and Neighbours
Always keep yourself safe. Never get in the middle of violent situation. Always call the police in an emergency.

You may know a woman or a man who is in an abusive relationship. This knowledge can put you in a difficult position, especially if they are a close friend or family member.

Here are some tips when approaching someone you suspect is being abused:

- Choose the right time and place to have a full, safe discussion
- Use examples of things you've seen and observed
- Remain supportive, especially if he or she becomes defensive
- Don't get angry with him or her
- Provide resources and options
- Express concern for his/her safety and the safety of his or her children
- Listen to their concerns/fears
- Call the police if anyone's safety is in jeopardy

If the abuse is denied:

- Be aware that people who are abused will often minimize the impact and deny that anything is wrong. They may state that the situation isn't that bad or may blame themselves for the abuse. This kind of denial usually comes from fear.
- Keep your conversation focused on your concerns for the family's safety and well-being and reiterate that abuse is never okay.
- Keep the lines of communication open and look for opportunities to help them find support.

Local Police:

- Charlottetown - (902) 629-4172
- Summerside - (902) 432-1201
- Kensington - (902) 836-4499

If you feel that you are not safe and not able to leave, call 911. If there is immediate danger to either you or your children, call 911. If you are witnessing abuse, whether it is to a man, woman or child, call 911. An operator will connect you to local Police in your area for support. The operator will ask you for your phone number (in case of a disconnection), your location/civic address, and if there are any injuries. If there is a disconnection, the 911 operator will attempt to call you back. If you do not answer but had indicated that there was a domestic situation, 911 will notify the Police of your situation and location, and police will come to your location to help you.

Mental Health Crisis Response

Mental health staff are available through the Emergency Departments at the Queen Elizabeth Hospital and Prince County Hospital.

Charlottetown

Queen Elizabeth Hospital - Emergency Department
60 Riverside Drive
Charlottetown

Mental Health Crisis Response Hours:
Monday to Sunday 8:00 a.m. – 8:00 p.m.

Summerside

Prince County Hospital - Emergency Department
65 Roy Boates Avenue
Summerside

Mental Health Crisis Response Hours:
Monday to Friday 8:00 a.m. – 6:00 p.m.
Saturday & Sunday 8:00 a.m. - 6:30 p.m.

Male/Female, no fees

Experienced mental health staff provide a prompt response to people with a mental health emergency through the provincial mental health crisis response system. Mental health response is currently based in the Emergency Departments of the Queen Elizabeth Hospital and Prince County Hospital, and in community mental health settings. People who present with a mental health emergency will be assessed by a crisis response nurse or social worker and referred to the most appropriate service, which may be a physician or other mental health clinician.

Mental health staff work closely with the Emergency Department physicians and link the client to the appropriate level of service without delay. Not only does this initiative greatly reduce response time and risk, but it can also be effective in preventing suicide.

The Prince Edward Island Rape and Sexual Assault Centre is a community-based, non-profit, government funded organization that provides services across the province to adult and youth survivors of recent or historic childhood sexual abuse or sexual assault. Services include individual and group therapy, public education and support and information.

The commitment to privacy and confidentiality is a key cornerstone to the PEI Rape and Sexual Assault Centre and it's a crucial component to their therapeutic relationships with their clients. They never disclose who is on their wait list or obtaining their services. They never release confidential information about their clients without a client's written informed consent.

PEIRSAC Therapy Services are:

- For women and men (16 years and older) who have experienced sexual violence
- Free of charge
- Confidential
- Provided by professional therapists who are experienced and trained in trauma recovery

As well as individual therapy, PEIRSAC also manages Men Matter, a group program for men who have experienced sexual abuse.

PEIRSAC does **not** provide the following:

- Couples and family therapy
- Services to children
- Groups only as resources allow
- Support and crisis intervention after regular work hours and on weekends
- Accompaniment to hospital or police

To make a request for therapy services, please call the therapy line at (902) 368-8055. Please leave a confidential voice mail message which includes: your name, number and whether staff can leave a detailed message at that number and they will get back to you as soon as possible. When one of their therapists returns your call, she will ask you a series of questions to gain an appreciation of your situation. Recent assault victims will receive priority. A therapist will call you as soon as possible to set up your initial appointment. If they have a wait list at the time of your call, you will be advised of this. Victims of recent sexual assault are seen as soon as possible.

Family Service PEI keeps the need for the safety of all clients at a high level of priority. Prior to providing couples counseling or anger management services, clients must be assessed to ensure those services will be safe and helpful. Family Service PEI can also provide Employee Assistance Program services, when requests for counseling have been made through your work or personal health insurance plan. Financial counseling services are provided free of charge. **There is a fee for Therapeutic Counselling; however fee subsidies are available for those who qualify. Persons experiencing family violence are given priority in accessing a subsidized therapeutic counseling appointment with a therapist as soon as is possible.**

Information for Individuals Whose Behaviour is Abusive

Do you worry that you are hurting or harming someone close to you? Understanding your own abusive behaviour is very valuable and can be an important first step toward making a change not only for yourself, but also for the loved ones in your life.

There are many people who find it challenging to manage their anger. People often blame their anger as a cause of being abusive. Anger is NEVER an excuse for being physically, verbally or emotionally abusive. There are many strategies for dealing with and managing anger. It is important to find ways to express your anger in ways that are not damaging or dangerous.

No one else is ever responsible for your abusive behaviour. No one else could ever make you abuse them. Being abusive is always a choice.

Some times in abusive relationships, both the victim and the abuser blame drugs and/or alcohol for the abuse. Although substance abuse is a factor, **it is not the REASON for violence.**

If you don't seek help, your abusive behaviour can increase and you could cause serious, lasting harm to someone you care about.

There are legal consequences to being abusive. Violence and threats of violence can result in arrest and criminal charges.

It can be difficult to admit that your behaviour is abusive, but you are not alone. There are many resources, services and people available to help you.

For Family, Friends and Neighbours
Always keep yourself safe. Never get in the middle of violent situation. Always call the police in an emergency.

You may know a man or woman who is being abusive to their partner. Your knowledge of this can put you in a difficult position, especially if he or she is a close friend or family member.

Here are some tips when approaching someone you suspect is being abusive:

- Choose the right time and place to have a full discussion.
- Approach them when they are calm.
- Inform them that their behaviour is their responsibility. Avoid making judgmental comments about them as a person. Don't validate attempts to blame others for their behaviour.
- Don't try to force change or force the person to seek help. Tell them that you are concerned for the safety of their partner and children.
- Never argue with about their abusive actions. Recognize that confrontational, argumentative approaches may make the situation worse and put victims at higher risk.
- Call the police if anyone's safety is in jeopardy.

If the person denies the abuse:

- Be aware that people who are abusive will often minimize the impact and deny that they have done anything wrong. They may state that it isn't that bad or blame the victim for their actions. This type of behaviour deflects their own responsibility for their actions.
- Keep your conversation focused on your concerns for the family's safety and well-being and reiterate that abuse is never an answer.
- Keep the lines of communication open and look for opportunities to help them find support.

The following counselling services outlined throughout this Guide offer supports for someone who identifies as having abusive behaviours toward his or her partner.

- Information and Support -

Community and Correctional Services: Clinical Services Team (Turning Point for Men, Anger Management Program, Sexual Deviance Assessment/Treatment Program)

The Clinical Services team is a provincial resource which provides assessment and treatment to offenders and high risk community members. **The target populations of the team's services are high risk adults and youth involved in the justice system.** Referrals for assessment are also accepted from other agencies. Adult Islanders may also make direct self-referrals for assessment for certain programs.

Programs assist, support and treat individuals experiencing significant personal difficulties. These difficulties may be associated with criminal court interventions and behaviour that poses a high-risk of harm to self or others. The team also provides training, consultation and case management support.

Turning Point for Men

Turning Point Coordinator
(902) 368-6392
Male, free

Turning Point is a counselling program for men who acknowledge their violence and other abusive behaviours toward their partner. The program is for men who want to change these behaviours and assists to develop skills for creating respectful, healthy relationships. **Referrals received from the Justice System are a high priority for placement into the program.** Therefore, wait times for referrals from outside organizations or self referrals are dependent on when received as well as current program capacity. Prior to entering the program, intake interviews are arranged with the Turning Point Coordinator. Turning Point consists of 14 to 16 sessions, provided through group and/or individual counselling. Groups are held in

the evenings once a week from 6:00 to 9:00 p.m. and individual programs occur during regular government hours. Generally, Fall and early Spring programs are offered in Charlottetown, late Winter programs in Summerside, and early Fall programs in Montague. There is no cost to participate in the program.

Anger Management Program

Clinical Therapist

(902) 368-6390

Male/Female, free

The target population of the Anger Management program is high-risk adults involved in the justice system. Referrals for assessment are also accepted from other agencies. Adult Islanders may make direct self-referrals for assessment.

Skills learned in the Anger Management Program include:

- mood patterns and triggers
- total behaviour concepts
- anger sequences
- decision making
- problem solving
- refusal skills
- negotiation
- positive self-talk

The Anger Management Program is based on an integrative, cognitive behavioural approach.

Sexual Deviance Assessment/Treatment Program

Sexual Deviance Clinician

(902) 368-6391

Male/Female, free

The target population of the Sexual Deviance Assessment/Treatment Program is adults involved in the justice system. Self-referrals and referrals from other agencies also accepted. The purpose of this program is to provide skilled assessment and treatment to adults or adolescents who have engaged in, or who are at risk of engaging in, sexually deviant behaviour. Services are made available regardless of whether or not the behaviour has resulted in a conviction under the Criminal Code of Canada.

Catholic Family Services Bureau is a confidential, non-denominational counselling service that works to meet your therapeutic needs by providing the highest level of individual, couple, and family counselling services for men, women and children. Staff use both traditional therapeutic techniques and creative arts counselling interventions (such as music therapy or play therapy). At all times, the team will demonstrate understanding, skills, comfort, tolerance, and sensitivity toward cultural differences such as ethnicity, culture, age, gender, sexual orientation, abilities, economic status, and religious/spiritual affiliation. **The fee for service is based on income, except in the case of domestic violence, in which case the service is free under certain circumstances, please call for more information.**

Visiting clinical services provided in family physician offices and health centres in Tyne Valley, O'Leary, Rustico, Hunter River, Cornwall and Montague.

Community Mental Health Services provides a broad range of therapeutic mental health services to men, women, children and adolescents. Services include individual counselling, family counselling, group therapy, among many others. Referrals can be made by your doctor or you can call and request service. When you make the initial call, the receptionist will take your name and phone number. Within a few days, an Intake Worker will call you back for an assessment to determine the best service for you. You can make a request for either a male or female counselor; however this may result in a longer wait time for service. General wait time for service is 30 days. Those interested in marriage counselling are often referred to Catholic Family Services Bureau. **There are no fees for service** with Community Mental Health Services.

Experienced mental health staff provide a prompt response to people with a mental health emergency through the provincial mental health crisis response system. Mental health response is currently based in the Emergency Departments of the Queen Elizabeth Hospital and Prince County Hospital, and in community mental health settings. People who present with a mental health emergency will be assessed by a crisis response nurse or social worker and referred to the most appropriate service, which may be a physician or other mental health clinician.

Mental health staff work closely with the Emergency Department physicians and link the client to the appropriate level of service without delay. Not only does this initiative greatly reduce response time and risk, but it can also be effective in preventing suicide.

Sometimes in abusive relationships, both the victim and the abuser blame drugs and/or alcohol for the abuse. Although substance abuse is a factor, **it is not the REASON for violence**. There are always underlying issues and both parties should seek counselling services in addition to detox/rehabilitation.

Addiction Services provides a broad range of **free services** to men, women and youth with substance abuse and/or gambling issues. Addiction Services also provides services for family members affected by someone's substance abuse and/or gambling issues. Services include: detoxification, individual counselling, rehabilitation and family programs, among others. Referrals can be made by your doctor or you can call and request service. To determine your best service option, please call one of the telephone numbers listed above.
